A fully tax deductible opportunity

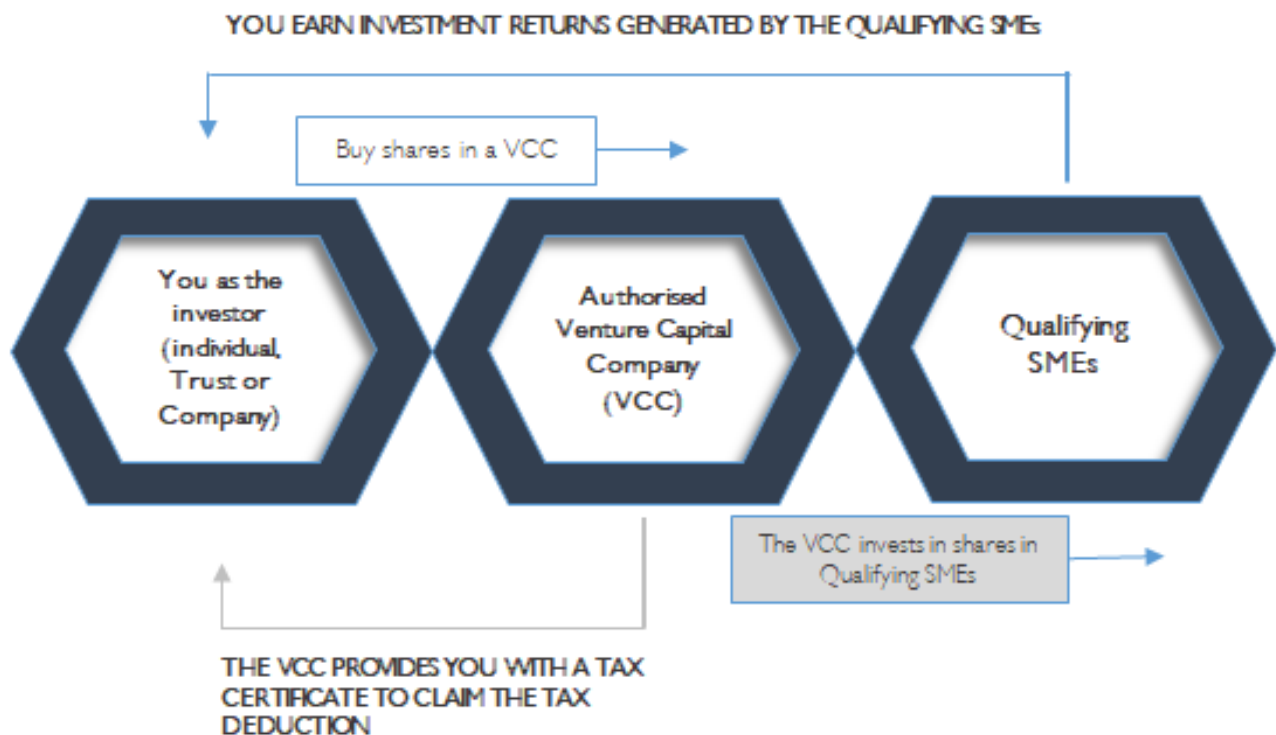

A new radiology franchise management and admin solution, improving efficiency and patient satisfaction

The growth in more advanced, non-invasive examinations and diagnosis has seen strong growth and such is expected to continue with medical advances and patient and treatment requirements. Intersight Systems will not only assist in the establishment of individual radiology rooms but also manage the setup, systems, HR, required radiologists and related specialists, equipment scoping, procurement, funding and maintenance, booking and billing. The medical industry requires radical change - this business will be one of the companies assisting such radical change.

About BigSky

We seek unique investment opportunities that feed off current inefficiencies in the marketplace. We engage with out-of-the-box thinkers who have unique intellectual property to break away from the norm.

We provide a niche and customized funding mechanism to unique business opportunities utilising Section 12J.

What is a Section 12 J investment?

Section 12J of the Income Tax Act provides a tax incentive for individuals, trusts and companies who invest in a SARS and FSCA approved Venture Capital Company. An investment amount of up to R2,5 million (for individuals and trusts) and R5 million (for corporates) can be claimed as a 100% deduction against taxable income in the year in which the investment is made.

Intersight Systems - one investment with multiple benefits

1 Significant tax savings

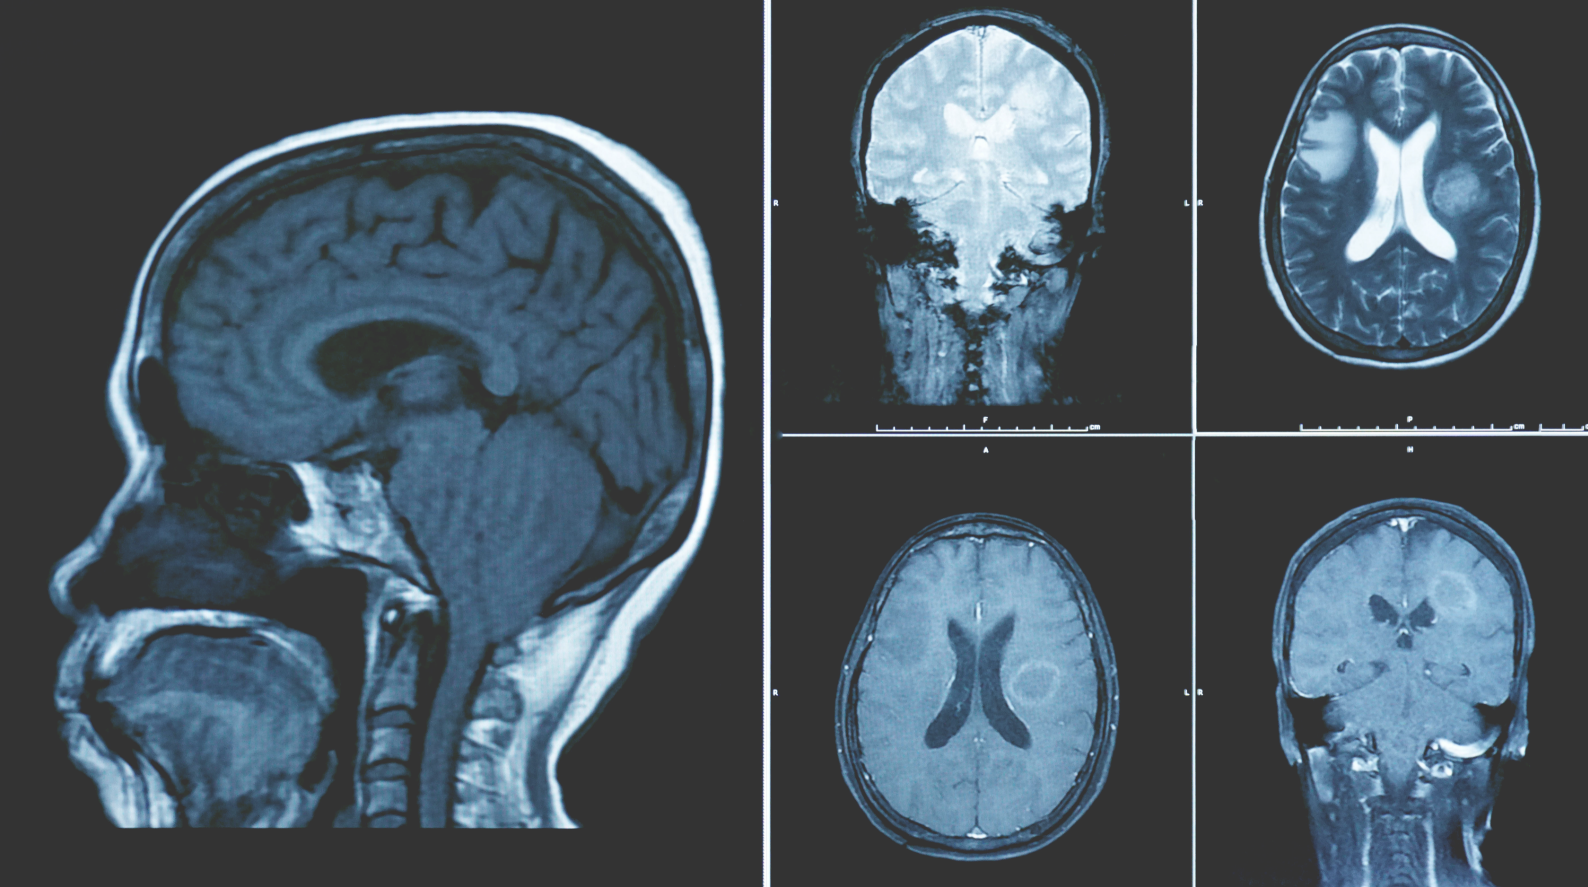

Your investment into MedRent Services enables you to claim a tax refund of up to 45% in the tax year that the investment is made.

2 Attractive returns

You can look forward to receiving very attractive returns with the possibility of a dividend.

3 Exciting investment

Be part of an exciting opportunity in an industry where out-of-the box thinking in an industry where dramatic change will lead to massive opportunity.

Targeted cash flows over a 5 year investment period are:

	YEAR 0	YEAR 5
Initial Investment	(2 500 000)	
Tax Refund	1 125 000	
Net Cash Outflow	(1 375 000)	
Capital Returned		4 405 854
CGT		(793 054)
Net Cash Flow		3 612 800
Net Cash incl Tax Refund Received		4 737 800
IRR		21.31%

Assumes a 45% tax bracket and 40% inclusion rate. If the investor falls in a lower tax bracket, the IRR figure would be lower.

An expert team with proven experience:
